WORK IT OUT

Barber & Osgerby is one of the UK's most prolific design teams and creators of the golden beehive design for London's Olympic torch in 2012. This Puzzle design for Italian tile manufacturer Mutina has a similar feel with its bold geometry. It is available in eight colours, each named after European islands. The neutral colours represent the Northern Isles of Faroe, Gotland, Åland, Anglesey and Skye while the warmer, brighter shades Crete, Milos and Murano. Mutina by Domus is available at West One Bathrooms. westonebathrooms.com

PURE AND SIMPLE

Balineum asked ceramicist Reiko Kaneko to create something unique and personal for its accessories collection. Brought up in Japan and now based in the Potteries, Stoke-on-Trent, Reiko took her inspiration from a Japanese tea set, complete with tray. Each piece is handmade from fine bone china and includes a soap pump, small tumbler, large tumbler, container and soap dish, available in mint green (£195) or white (£159). balineum.co.uk

A FINE LINE

German designer Anke Salomon's latest product for Kaldewei is the exceptionally fine Miena washbasin bowl made using a single layer of steel enamel. Stylishly slim while very hard-wearing. 'Achieving clean, simple styling for any product design is far from straightforward,' says Anke, 'and the purity of Miena's aesthetic was a tough challenge.' The washbasin is available in a round or rectangular shape in two sizes. From £811. kaldewei.co.uk

EXPERT HANDLING

Internationally renowned interior designer Martin Brudnizki, whose numerous, glamorous projects include Sexy Fish and Michel Roux's The Wigmore, has an ongoing relationship with Drummonds bathrooms. This latest launch, the Leaward tap collection, features a flattened end on the lever controls, both beautiful and ergonomic. The design is made using a traditional 'lost wax' process, which Drummonds uses to manufacture its brassware. Leaward lever three-hole basin mixer tap in polished brass, from £1,278, shown with Drummonds Ladybower double vanity, £8,340. drummonds-uk.com ■
